- HTML5, CSS3, JavaScript (ES6), Responsive Design (Flexbox, Grid), Basic React.js

Tools & Platforms:

- Git, GitHub, VS Code, Chrome DevTools

Other Skills:

WordPress, Elementor, WooCommerce

EDUCATION

Bachelor of Science - (B.Sc. Computer Science), Andhra University, Visakhapatnam.

PROFESSIONAL EXPERIENCE

● Frontend Developer | WordPress Developer - Speeler Technologies

Feb 2024 - Jan 2026

At Speeler Technologies, I worked as a Frontend Developer where I developed responsive and user-friendly websites using HTML, CSS, JavaScript, and WordPress. I converted UI/UX designs into functional web pages with pixel-perfect accuracy while ensuring cross-browser compatibility and seamless performance across devices. I focused on optimizing website performance by improving load times and refining UI structure. Additionally, I integrated dynamic content to enhance user interactions and consistently debugged and resolved UI issues to improve overall usability and user experience.

- Developed responsive and user-friendly websites using HTML, CSS, JavaScript, and WordPress.
- Converted UI/UX designs into functional web pages with pixel-perfect accuracy.
- Implemented responsive design to ensure seamless performance across devices.
- Optimized website performance by reducing load time and improving UI structure.
- Integrated dynamic content and improved user interactions.
- Debugged UI issues and enhanced website usability.

● Digital Marketing Executive | Graphic Designer - Brick 2 Brick

Sep 2023 - Jan 2024

As a Digital Marketing Executive and Graphic Designer in a real estate company, I was responsible for increasing brand visibility, driving lead generation, and creating high-quality marketing materials. I managed social media strategies, executed targeted campaigns, and designed promotional creatives and brochures that effectively communicated project details to potential buyers. My role involved daily content creation, campaign optimization, and ensuring consistent brand presence across all platforms.

- Managed social media platforms to increase brand reach, engagement, and inquiries.
- Designed brochures, flyers, hoardings, and project marketing materials for real estate ventures.
- Created daily social media creatives aligned with branding and campaign objectives.
- Executed lead-generation campaigns on Facebook, Instagram, and Google Ads.
- Analyzed campaign performance and optimized strategies to improve lead quality and cost efficiency.
- Scheduled and published daily content to maintain consistent online presence.
- Coordinated with sales teams to align marketing strategies with project requirements.
- Conducted competitor research to identify new marketing opportunities.
- Managed video content, reels, and promotional posts to showcase project highlights.
- Ensured creative accuracy, timely delivery, and brand consistency across all platforms.

At Lovi Real Estate LLP, I worked as a Graphic Designer and Digital Marketing Executive, supporting the company's branding and lead-generation efforts. I created visually appealing marketing materials for real estate projects and managed digital promotional activities to improve online reach and drive qualified inquiries. My role involved daily content creation, social media management, and campaign execution to strengthen brand presence in the competitive real estate market.

- Designed brochures, social media creatives, posters, and promotional materials for multiple real estate projects.
- Managed social media pages to increase brand visibility, engagement, and organic reach.
- Planned and executed paid campaigns on Facebook, Instagram, and Google to generate quality leads.
- Created daily content including banners, reels, thumbnails, and project highlight posts.
- Collaborated with sales teams to align creatives and marketing messages with project requirements.
- Monitored campaign performance and optimized targeting for better conversions.
- Developed branding assets and maintained visual consistency across all marketing platforms.
- Coordinated on-site photo and video content requirements for real estate projects.
- Handled digital branding for project launches, offers, and seasonal promotions.
- Ensured timely delivery of creatives and maintained a structured content calendar.

PROJECTS

● Dashboard Application

Developed a responsive admin dashboard using HTML, CSS, and JavaScript to display analytics and data in a structured layout. Implemented interactive UI components such as charts, tables, and navigation panels for better data visualization. Designed a clean and modern interface with focus on usability and responsiveness across devices. Optimized layout and performance for smooth user interactions. This project demonstrates strong frontend development and UI design skills.

● Movie Search Application (OMDb API)

Developed a responsive movie search web application using HTML, CSS, and JavaScript by integrating the OMDb API. Implemented real-time search functionality with dynamic data rendering using Fetch API. Added loading states and error handling to improve user experience. Designed a clean and interactive UI with responsive layout for all devices. This project demonstrates strong skills in API integration, DOM manipulation, and asynchronous JavaScript.

● Task Manager Web App

Built a task management web application using HTML, CSS, and JavaScript to manage daily tasks efficiently. Implemented features like add, delete, and task status updates using localStorage for data persistence. Designed a clean and responsive UI for better usability. Ensured smooth interactions and optimized performance across devices.

● SecureStep - <https://securestep.in/>

I developed the SecureStep website using WordPress and Elementor, focusing on creating a user-friendly, responsive, and visually appealing interface. The site is fully optimized for performance, SEO, and smooth navigation, ensuring a seamless experience across devices. I designed clean layouts, structured the content for clarity, and implemented essential functionalities to improve usability and engagement. This project highlights my ability to build professional, fast-loading, and client-focused websites using modern WordPress tools.

● Taza Mangoes – <https://taazamangoes.store/>

Developed a single-page e-commerce website using WordPress, Elementor, and WooCommerce to promote and sell fresh mangoes online. Designed a clean and user-friendly interface showcasing product details, pricing, and ordering options. Implemented WooCommerce for product management and seamless order flow. Ensured mobile responsiveness for better accessibility across devices. Optimized images, layout, and navigation to enhance performance and user experience.
